General principles and terms of use

I. General principles

1. The "Application for the Provision of Rooms in TU Dortmund University IBZ for Holding Events" must be submitted to the International Office at least two weeks before the event. Flyers or invitations to the events must be submitted to the International Office.

2. The allocation of rooms applies only to the organizer's own events. The organizer is not entitled to sublet or transfer the use of the rooms in any other form to third parties. Co-organizers involved must be indicated to the International Office in the application for transfer of use or in the booking request.

3. Any postponement or cancellation of an approved event must be reported immediately to the International Office.

4. The right of use may be revoked in the event that the topic of the event communicated in the application or booking is changed in its wording or content without the prior knowledge of the International Office.

6. As a prerequisite for the approval of an event, the conclusion of a liability insurance can be required. The corresponding proof of liability insurance must be submitted to the International Office at least one week before the start of the event. 7. For events of political parties as well as their subgroups or affiliated organizations, the provision of rooms is generally excluded. As a rule, university rooms are not made available for the purpose of religious practice or to religious communities, groups or associations.

8. For special university events, an attendance fee of up to 25 € per participant and day is set if the attendance fees are used exclusively for catering, printed matter or media. In this case, the University waives the levying of a user charge. For events organized by external users, the full user charge will be attributed. This charge must be paid in advance by the organizers.

9. The organizer must take appropriate measures (ticket issue/entrance controls etc.) to ensure that the maximum number of visitors (199 persons) is not exceeded.

10. The organizer is obliged to ensure that the event runs smoothly and to treat the equipment provided to him with care. He shall ensure compliance with the statutory provisions on his own responsibility. He is solely responsible for obtaining the official approvals and registrations required for the implementation of the event.

11. During an event, the organizer or an expressly authorized person in charge must be present and available at all times.

12. The costs for cleaning the premises applied for and the associated sanitary facilities are included in the user charge. Should special cleaning be necessary, the costs shall be charged to the organizer. The costs will be invoiced directly to the organizer by the cleaning company.
used. In the case of events of TU internal users that are exempt from charges, care must be taken to leave the rooms swept and tidy.

13. Fire alarm systems are not generally taken out of service for events. If (partial) shutdown of fire alarm systems is unavoidable for technical reasons, a fire security guard must be ordered by the organizer. The organizer shall be liable for fire brigade operations triggered by misconduct.

14. In the case of public reproduction of image and sound material (e.g. films, pieces of music), the organizer must ensure that the registration and payment of the fees to the GEMA is made.

15. The organizer is liable for all personal injury and property damage, regardless of the type and cause, which occurs in the rooms of the buildings and/or outdoor areas in connection with the event.
