

Master Degree Program	Information on the start of studies and duration of the letter of admission
Advanced Methods in Particle Physics	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Angewandte Literatur- und Kulturwissenschaften	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Angewandte Sprachwissenschaften	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Architektur und Städtebau	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Automation and Robotics	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Bauingenieurwesen	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Chemical Biology	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Chemistry	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Data Science	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Econometrics	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Economics & Journalismus	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Elektrotechnik und Informationstechnik	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Empirische Mehrsprachigkeitsforschung	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Immobilien- und Baumanagement	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Industrial Mathematics	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.

Journalistik	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Logistik	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).
Maschinenbau	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).
Mechanics of Sustainable Materials and Structures	Start of studies only in the winter semester. Enrolment is possible for the requested winter semester and the following winter semester.
Musikjournalismus	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Physics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Raumplanung	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Religion, Ethics, and Politics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Spatial Planning	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Statistik	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Sustainable Energy Systems	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Wirtschaftsingenieurwesen	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).
Wirtschaftswissenschaften	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Wissenschaftsjournalismus	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.

Important note:

The above information is for guidance only. Binding information can only be found in the letter of admission.
