

Master Degree Program	Information on The Start of Studies and Duration of The Letter of Admission
Advanced Methods in Particle Physics	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Aging Societies	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Applied Computer Science	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Applied Literary and Cultural Studies	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Applied Linguistics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Architecture and Urban Design	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Automation and Robotics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Civil Engineering	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Biochemical Engineering	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Biopharmaceutical Engineering	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Chemical Biology	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Chemical Engineering	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Chemistry	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Data Science	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Data Science in Sports and Health	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.

Econometrics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Economics and Journalism	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Electrical Engineering and Information Technology	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Empirical Multilingualism	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Educational Sciences	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Real Estate and Construction Management	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Industrial Mathematics	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Computer Science	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Journalism Studies	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Cultural Analysis and Cultural Intermediation	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Logistics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).
Manufacturing Technology (MMT)	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Mechanical Engineering	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).
Mathematics	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Mechanics of Sustainable Materials and Structures	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Medical Physics and Physics of Living Systems	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.

Music Journalism	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Philosophy and Political Science	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Physics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Process Systems Engineering	Start of studies only in the winter semester. Enrollment is possible for the applied winter semester and the following winter semester.
Psychology	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Spatial Planning (in POMM Raumplanung)	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Rehabilitation Sciences	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Religion, Ethics, and Politics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Sociology	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Spatial Planning	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
SPRING - Regional Development Planning and Management	Start of studies only in the winter semester. Enrollment is possible only for the applied winter semester.
Statistics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Sustainable Energy Systems	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Technomathematics	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Information Systems	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.
Industrial Engineering	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the following semester (winter or summer semester).

Business Mathematics	Start of studies in the winter and summer semester. Enrollment is possible only for the applied semester.
Business Administration and Economics	Start of studies in the winter and summer semester. Enrollment is possible for the semester applied for and for the two following semesters.

Important note:

The above information is for guidance only. Binding information can only be found in the letter of admission/access.

Version of Summer semester 2026.
